

# Golden River

The Wax Injection Problem Solver!

## Technical Datasheet

### Want to make your favorite injection wax flow?

Golden River wax additive makes jewelry injection waxes flow like water.

And there is no need to change waxes or clean out your wax pot with all the work, mess and delay that it causes.

Just add a handful or two of Golden River wax additive to your current pot and see the improved flow almost immediately. Later you can add more of your original wax to return to normal conditions.

Available in convenient flake form, packaged in plastic bags containing 2 Kg. (4.4 lbs.) each.

### CAUTION

Molten injection waxes are **FLAMMABLE** at temperatures in excess of 350°F/177°C.

Hot injection waxes can cause skin burns. Avoid contact with skin. Adequate eye protection and protective clothing is strongly recommended.

All Castaldo waxes are non-hazardous, non-toxic and non-carcinogenic.

All Castaldo waxes are intended for professional use and only by persons familiar with jewelry casting techniques.

We are not responsible for misuse of our products or their use in conjunction with unsafe or improperly maintained equipment.
