

Jewelry Molding Rubber Gold Label®

Technical Datasheet

Net Weight:

5 lb / 2.27 kg & 50 lb / 22.7 kg rolls

Castaldo Gold Label® comes packed in 50 lb / 22.7 kg strong and convenient roll dispenser boxes and 5 lb / 2.27 kg convenient rolls packed in consumer oriented tubes.

Castaldo Gold Label® is lined with golden coloured cloth on oneside and lightly dusted on the other side. Dust does not need to be cleaned off and does not act as a separator or interfere with proper lamination and vulcanisation.

Complete instructions are enclosed in each box.

Easy to handle and to roll out the rubber. Keeps the rubber neat, clean and fresh in the roll format.

Name	Gold Label®
Shore A Hardness	37.3
Vulcanizes at	307°F / 152°C
Rubber Shrinkage	2.1%
Break Elongation	706%
Break Tensile Strength	Very Strong 2,475 psi 13.9 n/mm ²
